turns more than heads

Sigma 8KS

Floor-standing centrifuge

- **Refrigerated**

www.sigma-zentrifugen.de

Top performer for universal deployment

Sigma is a leading international manufacturer of laboratory centrifuges for diverse sectors, including biotechnology, pharmaceutical, medical and environment analysis. Laboratories, institutions and companies everywhere in the world have been relying on premium Sigma quality – Made in Germany – for more than 40 years. The company stands for innovative products and development of durable, energy-efficient and especially user-friendly devices.

The Sigma 8KS is a refrigerated floor-standing centrifuge that is ideal for universal deployment in the industrial and research sectors. This high-performance centrifuge features impressive capacity of up to 12 x 1,000 ml in a swing-out rotor or 6 x 1,000 ml in a fixed-angle rotor. With a maximum RCF of 20,461 x g, even demanding separation processes can be handled efficiently. Particularly thanks to the ability to use large-volume fixed-angle rotors with high RCF, the Sigma 8KS covers a distinctly broader spectrum of applications compared to competitive units.

For the sedimentation of relatively large quantities of liquids, the Sigma 8KS delivers reliably reproducible results together with impressively smooth running. Intuitive operation and the ergonomic loading height of just 88 cm simplify daily work in the lab and make the Sigma 8KS one of the most popular large-volume floor-standing centrifuges on the market.

High throughput in the laboratory

Result-oriented, convenient and robust

Along with excellent specifications, the updated Sigma 8KS offers scores with intuitive operation and advanced features. The intuitive single-knob Spincontrol S controller, automatic rotor identification and lid opening to the side ensure comfortable and ergonomic operation. With run time and speed monitoring, password-protected access to the controller and secure program storage, the centrifuge offers uncompromising safety and security.

Along with the large-volume fixed-angle rotors, many users appreciate the ability to use a swing-out rotor with or without a windshield at their discretion. A rotor without a windshield has advantages for handling, while the versions with windshields are distinctly more energy efficient. The lower drag enables energy savings of more than 60 %.

The Sigma 8KS has a fast, finely adjustable cooling system with a temperature range from -20 °C to +40 °C. The Rapid Temp function allows the centrifuge chamber and accessories to be cooled to a defined temperature. In the other direction, fast heating is also possible.

The Sigma 8KS is optionally available as a GMP or inert gas version. Additional custom solutions can also be implemented upon request.

Sigma 8KS

- Compact refrigerated standard centrifuge
- Maximum RCF: 20,461 x g
- Maximum capacity: 12 x 1,000 ml
- High energy efficiency
- Ergonomic 88 cm loading height
- User-friendly Spincontrol S controller
- Extra large TFT display
- 60 programs
- High-performance cooling
- Temperature setting range: -20 °C to +40 °C
- Rapid Temp program
- Rotor cooling also possible at standstill
- Low noise level
- Automatic rotor identification
- Zero-maintenance induction motor
- 30 pairs of braking and acceleration profiles
- Motorised lid locks
- Automatic imbalance monitoring
- Rotor life monitoring for high safety
- Easily cleaned stainless steel chamber
- Window in lid for external speed monitoring
- Manufactured according to the latest national and international standards (e.g. EN 61010-2-020)

Options

- Water cooling for supperior cooling efficiency and minimum noise level
- GMP version with water-cooled compressor and special housing
- Inert gas version with inert gas injection system

Rotors and accessories

Diverse options with a multitude of choices

The Sigma 8KS offers a broad portfolio of fixed-angle and swing-out rotors, making it suitable for a very wide range of applications. The numerous buckets and adapters can accommodate tubes and bottles from 1.5 ml to 1,500 ml, as well as microtiter plates and deep-well plates.

Standard 1,000 ml and 1,500 ml flat-bottom bottles can be inserted in both six-place swing-out rotors. In the version with a windshield, RCF up to 8,578 x g can be achieved with a maximum capacity of 6 x 1,500 ml. In the version without a windshield, the total capacity is an impressive 12 x 1,000 ml.

The swing-out and fixed-angle rotors can both handle standard 1,000 ml USP VI bottles without using adapters. That makes them ideal for sensitive applications with biological substrates, such as isolation of bacteria or yeast cultures. If necessary, large quantities of liquids can also be centrifuged in the available rotors with RCF up to 20,461 x g.

As a special feature, Sigma can produce custom accessories upon request. The rotors and accessories are made from certified high-grade materials to withstand the most severe stresses.

Cleanroom

Robust and resistant

Cleanroom coating
Available for all accessories

An extremely resistant cleanroom coating is available from Sigma for all aluminium buckets and rotors. This coating provides reliable corrosion protection for accessories, especially where aggressive chemicals are used. The cleanroom coating can even withstand exposure to sodium hydroxide and hydrochloric acid. The surfaces are also food-grade (FDA certified) and can easily be cleaned without residues.

Fixed-angle rotor 12510

with aluminum lid 17891
and 6 stainless steel adapters 13511

Material properties

Guideline for optimal tube selection

Due to the many factors that influence material properties, this overview is only intended as a general recommendation. There is no guarantee of the stated properties. Users should therefore carefully test materials for suitability under specific application conditions. Tubes should be discarded as soon as they show any sign of material fatigue.

	Polycarbonate (PC)	Polyvinyl fluoride (PF)	Polystyrene (PS)	Polyethylene (PE)	Polypropylene (PP)
Autoclave resistant	Yes	Yes	No	No	Yes

Spincontrol S controller

Intuitive operation and many options

The patented one-knob Spincontrol S controller sets standards in control technology for laboratory centrifuges. All parameters, such as speed, RCF or temperature, are set using the multifunction knob and can even be altered during operation. Illuminated buttons for starting, stopping and lid opening facilitate access to these functions.

Along with manual parameter configuration, previously entered programs can be selected via shortcuts. These programs can be assigned alphanumeric names to enhance process reliability and simplify operation. Another practical feature is the progress bar that visualises program status and can been seen at a distance. All setpoint and actual values are constantly shown on the clearly organised display.

The countless features leave nothing to be desired: timer after setpoint speed reached, capacity for 60 programs, password protection against unintentional alteration of run parameters, rotor cycle counter. Those are just a few of the highlights that make the Spincontrol S controller a highly versatile system that will help you to meet the laboratory requirements of the future.

This premium controller from Sigma supports internal quality management functions as well as external communication with a laboratory information management system (LIMS). That way the Spincontrol S supports traceable professional reporting.

Premium quality

Made in Germany

The Sigma 8KS meets the highest technical requirements for laboratory centrifuges. Developed and produced at our facility in Osterode, Germany, it is a high-performance, durable and energy-efficient quality product and conforms to the latest safety, emissions and environmental standards. Sigma guarantees the availability of spare parts and wearing parts for at least 10 years.

Furthermore, you benefit from our extensive services portfolio, including commissioning, maintenance, device calibration and more. Our qualified service technicians are ready to provide professional maintenance and repair as well as loaner devices if necessary. All support services are designed to ensure reliability and optimise system availability.

	Sigma 8KS*	Sigma 8KS R455A
Max. capacity [ml]		
Swing-out rotor	12 x 1,000	12 x 1,000
Fixed-angle rotor	6 x 1,000	6 x 1,000
Max. RCF	20,461	20,461
Maximum speed [rpm]	10,500	10,500
Minimum speed [rpm]	100	100
Noise level at maximum speed (approximate) [dB(A)]		
Swing-out rotor 11805 with bucket 13850 in item no. 10631 / 10633	≤ 57 / 55	≤ 57 / 55
Fixed-angle rotor 12510 with lid 17892 in item no. 10631 / 10633	≤ 67 / 54	≤ 67 / 54
Max. acceleration time [s]		
Swing-out rotor 11805 with bucket 13850	≤ 59	≤ 59
Fixed-angle rotor 12510 with lid 17892	≤ 82	≤ 82
Max. braking time [s]		
Swing-out rotor 11805 with bucket 13850	≤ 83	≤ 83
Fixed-angle rotor 12510 with lid 17892	≤ 93	≤ 93
Temperature adjustment range [°C]	-20–+40	-20–+40
Power consumption [W]	6,500	6,500
Height x width x depth [mm]	990 x 820 x 949	990 x 820 x 949
Height with open lid [mm]	1,690	1,690
Weight without rotor [kg]	450	450
Refrigerant	R452A	R455A
Filling quantity [kg] / Max. permissible pressure [bar]	2.280 / 28	2.280 / 28
CO_2 equivalent [t]	4.879	0.337

* Contains fluorinated greenhouse gases in a hermetically sealed refrigeration system. (EU) 2024/2729; 2028-DEC-31

Sigma 8KS centrifuge

3 x 400 V, 50 Hz, air-cooled compressor	(item no. 10631)
3 x 400 V, 60 Hz, air-cooled compressor	(item no. 10630)
3 x 220–240 V, 60 Hz, air-cooled compressor	(item no. 10632)
3 x 400 V, 50 Hz, water-cooled compressor	(item no. 10633)
3 x 400 V, 50 Hz, air-cooled compressor, R455A	(upon request)

Sigma 8KS GMP

3 x 400 V, 50 Hz, water-cooling	(item no. 91300)

Sigma 8KS inert gas

3 x 400 V, 50 Hz, air-cooled compressor with inert gas injection system	(item no. 91301)
3 x 400 V, 50 Hz, water-cooling and inert gas injection system	(item no. 91583)

Service Sigma
For maintenance and repairs please contact our Service department at:

Calibration

Documented proof of compliance with essential technical parameters.

Speed or run time	(item no. 17713)
Speed and run time	(item no. 17714)
Speed, run time, temperature	(item no. 17715)

Device qualification (IQOQ)

This comprehensive device qualification includes installation qualification and metrological checking of all functional parameters with a rotor.

IQOQ documents	(item no. 170000)
IQOQ on site	(upon request)

WEEE reg. no. DE 76714077

Product portfolio

Sigma offers a broad product portfolio with more than 25 laboratory centrifuges. They can be combined with an extensive range of fixed-angle and swing-out rotors and a large variety of accessories to obtain the right device configuration for every application.

Microcentrifuge
Sigma 1-16

- 36 x 2 ml
- 15,000 rpm
- 20,627 x g

Floor-standing centrifuge
Sigma 8KS

- 12 x 1,000 ml
- 5,100 rpm
- 8,578 x g

- 6 x 1,000 ml
- 10,500 rpm
- 20,461 x g

Benchtop centrifuge
Sigma 2-7

- 4 x 100 ml
- 4,000 rpm
- 2,540 x g

- 30 x 15 ml
- 4,000 rpm
- 2,486 x g

Benchtop centrifuge
Sigma 3-30KS

- 4 x 100 ml
- 5,000 rpm
- 3,969 x g

- 6 x 94 ml
- 30,000 rpm
- 70,121 x g

Robot centrifuge
Sigma 4-5KRL

- 100 x 15 ml
- 4,700 rpm
- 4,470 x g

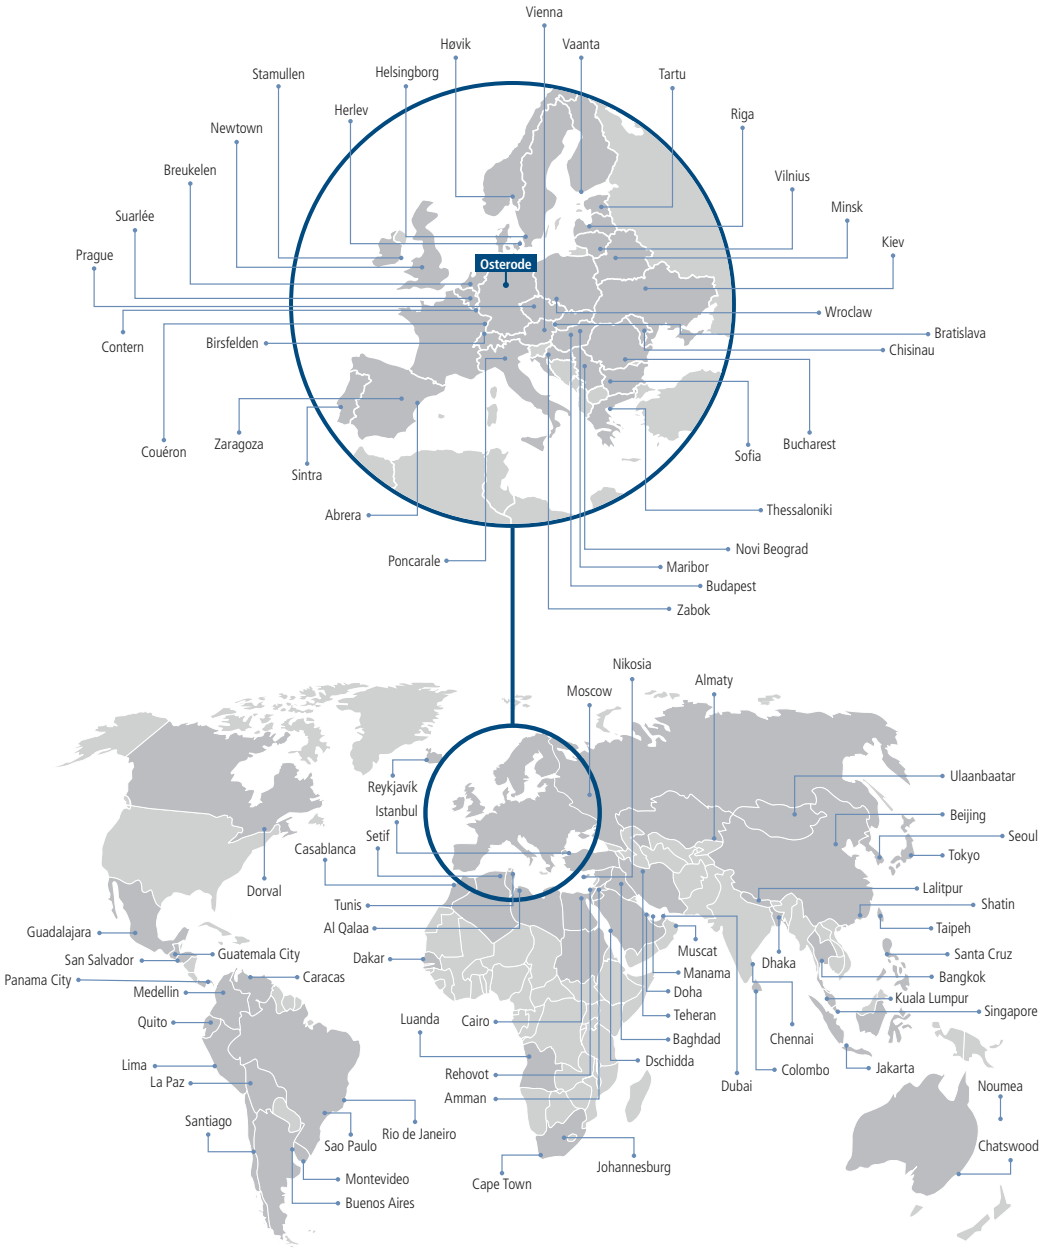

Legend

- Max. capacity
- Max. speed
- Max. RCF
- Swing-out rotor
- Fixed-angle rotor

Global service

For local product security

Our trained service partners in over 100 countries ensure consistently high quality in accordance with national regulations. Our specialists can also be engaged quickly around the world, either remotely or on site in person.

Selected locations of our representatives.
